CAREER OBJECTIVE

Software Engineer with strong full-stack experience spanning modern frontend development (HTML, CSS, SASS, Tailwind, JavaScript, ES6, React JS, React Hooks, Redux, React Router, Axios, Next.js, Ant Design, Shadcn, Material UI, TypeScript, Angular) and backend / server-side development (Node.js, Express.js, RESTful API design, Middleware development, JWT authentication, Mongoose, MongoDB, MVC architecture). Experienced with Git, Figma, and growing proficiency in AI-assisted development tools including GitHub Copilot, Claude AI, ChatGPT, Cursor IDE, and v0 by Vercel. Seeking to leverage end-to-end engineering skills to design, build, and ship scalable, user-friendly, and maintainable web applications.

CORE COMPETENCIES

- Proficient at creating responsive and accessible web applications using HTML, CSS, SASS, and Tailwind.
- Proficient at modern JavaScript frameworks and libraries such as React JS, React Hooks, Redux, React Router, Material UI, Ant Design, Shadcn, TypeScript and Angular.
- Proficient in building server-side applications with Node.js and Express.js, including designing and implementing RESTful APIs, custom middleware, and authentication/authorization flows with JWT.
- Experienced in following the MVC architecture and using Mongoose/MongoDB for schema design, data modeling, and database integration.
- Proficient in using Git for version control and collaborating with other developers using Agile methodologies and tools such as Jira.
- Monorepo strategy, Turborepo tool.
- Experienced in using Adobe XD, Figma.
- Knowledgeable in testing frameworks such as Jest to write automated tests for code quality and maintainability.
- Knowledgeable in working with Formik, React Native, and Next.js to develop dynamic and engaging web applications.
- Comfortable working across the full stack — integrating frontend applications with backend services, RESTful APIs, and databases to deliver complete features end to end.
- AI-assisted development: GitHub Copilot, Cursor IDE, Claude AI, ChatGPT, and v0 by Vercel for accelerated coding, code review, and rapid UI prototyping.

PROFESSIONAL EXPERIENCE

Frontend Developer at BrightByte – Remote (Freelance) (Nov 2025 – Present)

Working on Focal Point, the entrepreneur-facing web application for a workspace marketplace, enabling users to browse and book workspaces, chat with space owners, and manage their account and bookings, with full English/Arabic (RTL) support.

- Built responsive, bilingual (English/Arabic with RTL) interfaces using React.js and Next.js to deliver a seamless browsing and booking experience.
- Developed core marketplace features including space browsing and filtering, booking flows, owner-tenant chat, and account/booking management.
- Integrated RESTful APIs using Redux Toolkit & RTK Query for efficient state management and seamless data fetching across the application.
- Implemented rich UI/UX components such as image galleries, carousels, date pickers, searchable selects, OTP verification, and toast notifications to enhance usability.
- Handled media storage and delivery by integrating Backblaze B2 (S3-compatible) object storage for image assets.

Frontend Developer & Team Leader at Be Tech – Hybrid (Dec 2024 – Present)

Working on Asses educational platform, an advanced web application built with modern technologies to serve the Saudi education system. The platform features a responsive user interface that supports Arabic and provides a seamless user experience across all devices.

- TypeScript for adding static type definitions to JavaScript, enhancing development experience and code quality.
- Shadcn comprehensive React UI library that contains a plethora of easy-to-use components.
- Tailwind CSS – a utility-first CSS framework for creating custom designs without leaving your HTML.
- Redux Toolkit & RTK Query for efficient global state management and seamless API integration.
- Leveraged Claude AI and GitHub Copilot for code suggestions, automated code reviews, and faster feature delivery.

Frontend Developer at DigiFly – Hybrid (May 2024 – Apr 2026)

Working on Chemia, a website and dashboard aimed at streamlining operations, enhancing user experience, and fostering efficient management across various administrative and vendor domains.

- TypeScript for adding static type definitions to JavaScript, enhancing development experience and code quality.
- Ant Design comprehensive React UI library that contains a plethora of easy-to-use components.
- Tailwind CSS – a utility-first CSS framework for creating custom designs without leaving your HTML.
- Redux Toolkit & RTK Query for efficient global state management and seamless API integration.

Frontend Developer at Order Now (June 2022 – March 2024)

- Added new features, debugged and refactored the User App Ordering project built with React.js, TypeScript, Redux Toolkit, and React Router.
- Collaborated with the frontend team to identify areas of improvement and implemented solutions using best practices and design patterns.
- Worked closely with the UI/UX team to ensure the best user experience using Figma.
- Developed new features and enhancements per project requirements, ensuring maintainable, scalable, and efficient code.
- Conducted code reviews, identified bugs and issues, and resolved them in a timely manner.
- Ensured cross-browser and cross-device compatibility.

EDUCATION

Menoufia University – Electronic Engineering, Computer Science Department

Grade: Good

CERTIFICATES

- Fullstack Web Development Using MEARN (Intensive Code Camp) – Jun 2023 – Oct 2023 | Information Technology Institute (ITI)
- Software Development Fundamentals (Intensive Code Camp) – Nov 2022 – May 2023 | Information Technology Institute (ITI)
- Web Design – Sep 2022 – Oct 2022 | National Technology Institute (NTI)

COURSES

- HTML5 / CSS3 / Bootstrap5 / TailwindCSS / Material UI / JavaScript / ES6 / React.js / React Hooks / React Redux / TypeScript / Next.js / React Native / Angular – Udemy
- The Ultimate React Course – Jonas Schmedtmann (Udemy)
- Node.js, Express & MongoDB: The Complete Bootcamp – Jonas Schmedtmann (Udemy)
- Modern React with Redux – Stephen Grider (Udemy)
